Professional Summary

Recent graduate in Software Systems from Kauno kolegija, Lithuania, with hands-on experience in Agile Scrum methodologies gained during a junior .NET Developer internship at UAB SoftDent. Eager to apply skills in C#, React.js, .NET Core, and SQL Server to contribute effectively as a Junior Developer. Passionate about continuous learning and growth in software development, seeking opportunities to leverage technical expertise in a collaborative team environment.

Education

Professional Bachelor's Degree in Software Systems
Kauno kolegija – Higher Education Institution, Lithuania
Equivalent to a UK Bachelor's Degree
Kaunas, Lithuania
September 2020 – January 2024

Experience

Junior .NET Developer Intern
UAB SoftDent
Kaunas, Lithuania
August 2022 – November 2022

- Collaborated in Agile Scrum to enhance software solutions,
- Utilized .NET MVC for modular full-stack development.
- Worked in a team where CI/CD pipeline are implement with Jenkins for automated builds and deployments.
- Managed source code using Git, ensuring smooth version control and collaboration.

During my internship, I collaborated in Agile Scrum to enhance software solutions, working on both back-end and front-end development using .NET MVC. I integrated CI/CD pipelines with Jenkins for automated builds and deployments, and managed source code using Git to ensure smooth version control and collaboration.

Additional Activities

April 2023

Speaker at the "Innovation Application in Technology 2023" conference. Presented an article on the potential impacts of autonomous vehicles, exploring innovative technological applications and their societal implications.

July 2019 - August 2021

Volunteer, Trenkturas Hikes.

Enhanced communication skills and demonstrated ability to improvise and solve unexpected problems in a dynamic team environment.

April 2012 - July 2012

Leadership Development Courses

Completed basic military training, focusing on teamwork, time management skills, and physical endurance.

Projects

Portfolio Website

Technologies: **React.js, Jenkins, CI/CD, VPS Server**

GitHub: github.com/adascoding/Portfolio

- Started developing a personal portfolio website to showcase my projects and skills, using React.js for the front end.
- Implemented a CI/CD pipeline on a VPS server with Jenkins, enabling automated build and deployment processes.

Movie App

Technologies: **React.js, React Router, Tailwind CSS, .NET Core, Entity Framework, JWT**

GitHub: github.com/adascoding/MovieApp

- Created a dynamic web application for exploring movies, used React.js for the front-end.
- Utilized React Router for seamless navigation and Tailwind CSS for a responsive design.
- Developed the back end with .NET Core and Entity Framework Core
- Implemented JWT Authentication for secure user login and data protection.

Clothing Store App

Technologies: **React.js, Strapi, MySQL, styled-components, MaterialUI**

GitHub: github.com/adascoding/ClothingStore

- Developing an e-commerce platform for a clothing store, with React.js as the front-end.
 - Using Strapi as a headless CMS to manage content and MySQL for the database.
 - Styling the application with styled-components and MaterialUI to create a consistent and modern user interface.
-
